Workshops

Workshops are open to all ANZCA and FPM delegates registered to attend the 2016 ASM. Unless otherwise specified, workshops will be held on Saturday April 30 on level four and five of Skycity Convention Centre, Auckland.

- Delegates may register for more than one workshop.
- Workshop numbers are limited and places are allocated on a first-come-first-served basis.
- A ticket is required for entry to all workshops.
- Workshops are always well subscribed so we encourage you to register early to secure your place.
- Prices are in New Zealand dollars including GST.

**Stream: Emergency Response**

**Anaphylaxis – responding safely**

- **Saturday April 30**
  - W01A 8.30-10am
  - W01B 10.30am-noon

  **Maximum participants per session:** 18
  **Cost:** $NZ70
  **Location:** Skycity Convention Centre
  **Facilitators:** Dr Peter Cooke and Dr Karen Pederson, Auckland City Hospital, NZ

  This session will meet the ANZCA Continuing Professional Development (CPD) Program requirements as an emergency response activity, and cover the emergency management of anaesthesia allergy crises.

**Can’t intubate, can’t oxygenate (CICO)**

- **Saturday April 30**
  - W02A 8.30-10am
  - W02B 10.30am-noon
  - W02C 1.30-3pm

  **Maximum participants per session:** 16
  **Cost:** $NZ110
  **Location:** Skycity Convention Centre
  **Facilitators:** Dr Paul Baker, founder and director, Airway Simulation Limited, NZ

  Discussion and hands-on experience in managing a “can’t intubate, can’t oxygenate” (CICO) crisis provided by a leading expert in the field. This workshop has been approved by ANZCA as an emergency response activity for CICO.
### High Fidelity Cardiac Arrest Simulation

**Saturday April 30**
- W03A 8.30am-12.30pm
- W03B 1-5pm

**Maximum participants per session:** 10

**Cost:** $NZ400

**Location:** Tamaki Simulation Centre. Return transport will be arranged for delegates.

**Facilitator:** Dr Jane Torrie, Auckland City Hospital, NZ

Intensity, fun and safe learning in a state-of-the-art facility. Practice hands-on team management of peri-arrest and arrest events in the anaesthetic environment. Pre-reading will be provided two weeks before. Anaesthetic assistants and nurses will attend as part of the team. Participants in the ANZCA CPD Program may claim this workshop as an emergency response activity in their CPD portfolio (management of cardiac arrest) as well as eight CPD points (four hours) in the knowledge and skills/short courses category.

### ACLS Workshop

**Saturday April 30**
- W04A 9am-noon
- W04B 1-4pm

**Maximum participants per session:** 24

**Cost:** $NZ220

**Location:** ADHB Clinical Skills Centre, Auckland Hospital.

Return transport will be arranged for delegates.

**Facilitator:** Mr Jonathon Webber, director, Resuscitation Skills, NZ

The program includes a number of hands-on skill stations, including basic life support, use of an AED, manual defibrillation, cardioversion and pacing. The skill stations will be followed by a number of case simulations, which cover aspects of team leadership, drug therapy and the advanced life support algorithm. These cases will be based on peri-arrest scenarios commonly faced by FANZCAs. Course material including a pre-course test will be provided for all participants. This course will provide an opportunity for participants to fulfill the learning objectives of the ANZCA management of cardiac arrest emergency response activity. Participants may claim this workshop in their CPD portfolio and additionally six CPD points (three hours) in the knowledge and skills/short courses category.

### Stream: Regional Anaesthesia

#### Regional Anaesthesia for Elbow and Hand Surgery

**Saturday April 30**
- W05A 8.30-10am
- W05B 10.30am-noon
- W05C 1.30-3pm
- W05D 3.30-5pm

**Maximum participants per session:** 10

**Cost:** $NZ100

**Location:** Skycity Convention Centre

**Facilitator:** Dr Tin Lun Chiu, Auckland City Hospital, NZ

Do you hate being rostered for “hand lists”? This workshop will give confidence to the occasional practitioner who is faced with a list requiring nerve blocks for the elbow or hand. From preoperative planning to post-operative care, experienced regionalists will guide you through tips and tricks for this type of surgery.

### Regional Anaesthesia for Shoulder Surgery

**Saturday April 30**
- W06A 8.30-10am
- W06B 10.30am-noon
- W06C 1.30-3pm
- W06D 3.30-5pm

**Maximum participants per session:** 10

**Cost:** $NZ100

**Location:** Skycity Convention Centre

**Facilitator:** Dr Tin Lun Chiu, Auckland City Hospital, NZ

Have you ever been the anaesthetist who has been scheduled a shoulder surgery list and then stressed about it beforehand? Well, don’t stress! In this workshop you will learn from experienced regional anaesthetists how regional anaesthesia can be incorporated into the overall anaesthesia package (preop, intraop and postop) and how best to do these nerve blocks, including tips for trouble-shooting.

### Regional Anaesthesia for Hip and Knee Surgery

**Saturday April 30**
- W07A 8.30-10am
- W07B 10.30am-noon
- W07C 1.30-3pm
- W07D 3.30-5pm

**Maximum participants per session:** 10

**Cost:** $NZ100

**Location:** Skycity Convention Centre

**Facilitator:** Dr Tin Lun Chiu, Auckland City Hospital, NZ

Beyond neuraxial blocks for knees and hips: This workshop will cover how regional anaesthesia can be incorporated into the package of anaesthesia care for arthroplasty patients. Experienced practitioners will cover tips and tricks along with trouble-shooting difficult blocks.

### Regional Anaesthesia for Foot and Ankle Surgery

**Saturday April 30**
- W08A 8.30-10am
- W08B 10.30am-noon
- W08C 1.30-3pm
- W08D 3.30-5pm

**Maximum participants per session:** 10

**Cost:** $NZ100

**Location:** Skycity Convention Centre

**Facilitator:** Dr Tin Lun Chiu, Auckland City Hospital, NZ

“Triple ankle arthrodesis … Help!” Ever been the “occasional anaesthetist” rostered for a foot and ankle list, then worried about how you’re going to do these painful cases? In this workshop you will learn from experienced regional anaesthetists how regional anaesthesia can be incorporated into the anaesthesia care and how best to do those nerve blocks including tips for trouble-shooting.
### Workshops continued

#### Stream: Regional anaesthesia – continued

**Regional anaesthesia for neuraxial and truncal blocks**

<td><strong>Location:</strong></td>
<td>Skycity Convention Centre</td>
<td></td>
</tr>
<tr>
<td><strong>Facilitator:</strong></td>
<td>Dr Anil Patel, Royal National Throat Nose and Ear Hospital, UK</td>
<td></td>
</tr>
</tbody>
</table>

This workshop, conducted by a world leading expert, will cover the whole range of skills from basic handling to awake intubation techniques and the use of conduits for flexible intubation. High fidelity ORSIM simulators will be used to refine your techniques “hands-on”.

**Video laryngoscopy**

<table>
<thead>
<tr>
<th>Saturday April 30</th>
<th>W13A 8.30-10am</th>
<th>W13B 1.30-3pm</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Maximum participants per session:</strong></td>

<td><strong>Location:</strong></td>
<td>Skycity Convention Centre</td>
<td></td>
</tr>
<tr>
<td><strong>Facilitator:</strong></td>
<td>Dr Adam Law, QEII Health Sciences Centre in Halifax, Nova Scotia, Canada</td>
<td></td>
</tr>
</tbody>
</table>

The lead of the Canadian Airway Focus Group will show you how he manages wake intubation with a videolaryngoscope, demonstrates how to use a combined fibreoptic and videolaryngoscope approach, how to optimise your videoscopic view and will help you weigh up the pros and cons of the various alternative videolaryngoscopes on the market (cMac, Glidescope, McGrath, King Vision, Pentax AWS etc).

**Paediatric airway**

<table>
<thead>
<tr>
<th>Saturday April 30</th>
<th>W14A 10.30am-noon</th>
<th>W14B 1.30-3pm</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Maximum participants per session:</strong></td>

<td><strong>Location:</strong></td>
<td>Skycity Convention Centre</td>
<td></td>
</tr>
<tr>
<td><strong>Facilitator:</strong></td>
<td>Dr Sim Jagannathan, Ann &amp; Robert H. Lurie Children’s Hospital, Chicago</td>
<td></td>
</tr>
</tbody>
</table>

Our international paediatric airway expert will take you through how he performs modified awake intubation techniques (fibreoptic with manikin/Air Q), paediatric videolaryngoscopy (cMac, Trucorp, Glidescope, Airtraq), and give you hands-on time with the paediatric bronchoscopy simulator.
Stream: Thoracic and resuscitation

Basic transthoracic echocardiography (TTE) simulator workshop

Saturday April 30  
W15A 9am-noon  
W15B 1-4pm

Maximum participants per session: 20

Cost: $NZ370

Location: Auckland Town Hall

Facilitator: Professor Colin Royse, Royal Melbourne Hospital, Vic

Learn basic TTE using state of the art Vimedix CAE simulators. The course will start with an e-learning component that is completed prior to attending the workshop. During the workshop, delegates will learn how to use the simulator and how to acquire TTE images. This is followed with 10 self-directed cases using the simulator to reinforce learning. The simulators will be available for self-directed use throughout the conference.

Advanced ventilation skills

Saturday April 30  
W16A 1.30-3pm  
W16B 3.30-5pm

Maximum participants per session: 25

Cost: $NZ50

Location: SkyCity Convention Centre

Facilitator: Dr Chris Thompson, Royal Prince Alfred Hospital, NSW

This hands-on workshop uses a simple lung simulator to show how common respiratory problems such as long collapse and bronchospasm affect the lung. Participants will explore simple, practical ways in which a modern anaesthetic machine can be used to improve patient outcomes, for example, by using pressure support on induction and emergence, helping identify collapse, recruiting the lung, optimising PEEP, choose optimal ventilator settings (for example, obese patients or surgical procedures like laparoscopy).

Supraclavicular subclavian central line insertion with in-plane ultrasound guidance

Saturday April 30  
W17A 8.30-10am

Maximum participants per session: 16

Cost: $NZ100

Location: SkyCity Convention Centre

Facilitator: Dr Jamin Mulvey, Alberta Children’s Hospital, Canada

The learner will be able to describe the benefits of using this approach to venous cannulation. We will review the anatomy, sonoanatomy and procedural steps involved for in-plane ultrasound guided supraclavicular subclavian central line insertion.

Stream: Trauma and other

Anaesthesia and disaster response

Saturday April 30  
W18A 1-5pm

Maximum participants per session: 15

Cost: $NZ55

Location: SkyCity Convention Centre

Facilitator: Dr Maurice Lee, North Shore Hospital, NZ

If you have wondered about being part of a disaster medical assistance team, and been perplexed by international relief acronyms such as FMT, UNDAC, OSOCC with BOOs, WASH, NFI and INSARAG, then you will want to sign up immediately to spend your valuable workshop time with us. This four-hour workshop will be facilitated by anaesthetists and NZ USAR members who have been deployed to disaster zones. The tasting menu of disaster response will include short presentations on personal experiences, hands-on play with draw-over anaesthesia kits, discussions on equipment and kitbags used by NZMAT, and ethical and philosophical issues to consider.

Zoo anaesthesia

Tuesday May 3  
W19A 8.30am-1pm

Maximum participants per session: 20

Cost: $NZ270

Location: Auckland Zoo. Return transport will be arranged for delegates at designated times.

Facilitator: Dr George Gorringe, North Shore Hospital, NZ, and James Chatterton, senior veterinary manager, Auckland Zoo, NZ

Want a behind-the-scenes look at Auckland Zoo? Step into the world of veterinarian anaesthesia with a half-day of behind-the-scenes action. Presentations from James Chatterton (senior vet manager) and Kerrie Lewis (vet anaesthetist) will provide you a comparative view of animal anatomy and physiology and reveal the unique issues faced when working with animals. A practical demonstration will take place and we may even see a general anaesthesia procedure! Transportation, morning tea and lunch included. Following the workshop, why not enjoy an animal encounter? Bring the family along. (Additional charges will apply).
Workshops continued

Stream: Trauma and other – continued

Airborne medical emergencies

<table>
<thead>
<tr>
<th>Stream: Trauma and other – continued</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Saturday April 30</strong></td>
</tr>
<tr>
<td>Location: Air New Zealand Training Centre. Return transport will be arranged for delegates.</td>
</tr>
</tbody>
</table>

| Maximum participants per session: 30 |
| Cost: $NZ100 |

Facilitator: Dr Tim Sprott, Chief Medical Officer, Air New Zealand

“Is there a doctor on this flight...?” This session, led by the chief medical officer of Air New Zealand, Dr Tim Sprott, and the Air New Zealand medical team, will tell you about the equipment onboard an airliner, what a captain and crew need to know, a simulated emergency evacuation and touch on the legal ramifications of responding to emergencies at 35,000 feet.

Stream: Paediatrics

Paediatric anaesthesia near the edge and beyond

<table>
<thead>
<tr>
<th>Stream: Paediatrics</th>

</thead>
<tbody>
<tr>
<td><strong>Saturday April 30</strong></td>
</tr>
<tr>
<td>Location: Skycity Convention Centre</td>
</tr>
</tbody>
</table>

| Maximum participants per session: 20 |
| Cost: $NZ200 |

Facilitator: Dr Graham Knottenbelt and Dr Elsa Taylor, Starship Children’s Hospital, NZ

This session, run by sub-specialty paediatric anaesthetists, will serve you up a smorgasbord of common children’s problems and emergencies for the occasional paediatric practitioner to sample.

Stream: Medico-legal, aid and communication

Process communication model: Key2Me

<table>
<thead>
<tr>
<th>Stream: Medico-legal, aid and communication</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Saturday April 30</strong></td>
</tr>
<tr>
<td>Location: Skycity Convention Centre</td>
</tr>
</tbody>
</table>

| Maximum participants per session: 25 |
| Cost: $NZ290 |

Facilitator: Dr Andrew Robinson, Rotorua Hospital, NZ, and Dr Marion Andrew, Women’s and Children’s Hospital, SA

The Key2Me workshop will provide an introduction to a logical and structured model (Process Communication Model), which provides participants with an understanding of the role of personality in individual communication preferences, motivations, and how miscommunication and conflict arise. Workshop participants will begin to use process-listening skills, start to decode language and behaviour, and receive an individual personality report providing an insight into a learnable skills set for preventing conflict and building resilience.

Practical hypnosis for the busy anaesthetist

<table>
<thead>
<tr>
<th>Stream: Medico-legal, aid and communication</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Saturday April 30</strong></td>
</tr>
<tr>
<td>Location: Skycity Convention Centre</td>
</tr>
</tbody>
</table>

| Maximum participants per session: 45 |
| Cost: $NZ85 |

Facilitator: Dr Allan Cyna, Women’s and Children’s Hospital, SA, and Dr Suyin Tan, Nepean Hospital, NSW

Part one of this session will summarise the principles of subconscious communication. Part two will focus on how to use and teach self-hypnosis to patients electively and in an emergency.
Managing adverse outcomes

Saturday April 30  W25A 9am-noon
Maximum participants per session: 25
Cost: $NZ50
Location: Skycity Convention Centre
Facilitator: NZ Medical Protection Society

This workshop takes a comprehensive approach to the important area of communicating effectively with patients after they have suffered an adverse outcome. Doctors can find such discussions difficult, and may fear the legal and disciplinary consequences that can arise after such an outcome. This workshop highlights the importance of recognising patient expectations when an adverse outcome occurs and how failing to address these expectations can increase the risk of a patient turning to legal or disciplinary avenues for answers and to hold a doctor accountable. To enable participants to master managing adverse outcomes, the workshop provides a thorough grounding on the key issues, including basic ethical, regulatory and legal obligations of doctors in their discussion with patients following an adverse outcome.

Mastering your risk

Saturday April 30  W26A 2-5pm
Maximum participants per session: 25
Cost: $NZ50
Location: Skycity Convention Centre
Facilitator: NZ Medical Protection Society

International research shows doctors have the potential to reduce the risk of complaints and claims by improving communication skills and better managing patient expectations. This workshop gives doctors a thorough grounding in the issues surrounding risk management and introduces practical preventative skills and techniques doctors can implement immediately to reduce risk. It will cover:
- Understanding why patients complain.
- Why certain "bedside" manners expose some doctors to increased risk.
- Communication skills and risk – the link.

International research identifies doctor-patient communication as the major and common contributor to causes for claims and complaint. The workshop delivers communications skills training to doctors, modelled on successful international risk management programs. Doctors also experience practical training in techniques to improve communication skills and patient satisfaction.

Stream: Business and leadership

From teapots to Toyotas: Principles of lean thinking

Saturday April 30  W27A 10.30am-noon
Maximum participants per session: 12
Cost: $NZ110
Location: Skycity Convention Centre
Facilitator: Mr Justin Kennedy-Good, Program Director Performance Improvement, Auckland District Health Board

Anaesthetists are no strangers to the concept of trying to do more with less. This session will examine the concepts of Lean Six Sigma and other improvement areas to provide a framework to answer the challenge of a budget cut, without destroying the quality of care you provide.

The unknown edge: Writing a business case for dummies

Saturday April 30  W28A 1.30-3pm
Maximum participants per session: 30
Cost: $NZ110
Location: Skycity Convention Centre
Facilitator: Dr Leith Oliver, The University of Auckland School of Business, NZ

Health is big business and, as clinicians wish to take a lead in service delivery, we need to be able to understand and express ourselves in the parlance of business. Dr Leith Oliver is a facilitator and lecturer in the business schools executive programs and the department of information systems and operations management at the University of Auckland’s School of Business. He has a PhD, an MBA and MPhil with first class honours from the University of Auckland. In this workshop Dr Oliver will guide you through the “how and why” of writing a compelling business case.
Stream: Business and leadership – continued

Audit and maintaining databases

Saturday April 30      W29A 9am-noon
Maximum participants per session: 20
Cost: $NZ50
Location: SkyCity Convention Centre
Facilitator: Dr Lara Hopley, Waitemata District Health Board, NZ

This workshop will introduce the free Electronic Health Record (eHR), which you can use practically, and right now. It will cover what a normalised database is and why this is important, how to get up and running, how to configure the user interface and how to take your data further. All levels of users welcome. Please bring your laptop.

Stream: Education

Using the ANZCA library for research

Saturday April 30      W30A 1.30-3pm
Maximum participants per session: 25
Cost: $NZ50
Location: SkyCity Convention Centre
Facilitator: Ms Laura Foley, Knowledge and Resources Manager, ANZCA

This workshop will introduce library users (Fellows and trainees) to the ways in which they can use the library for research, particularly first phase literature searching. It includes an introduction to the library and its services, along with a hands-on workshop, with attendees guided through research processes. This session is suitable for those undertaking contemporary research projects, as well as undertaking historical research.

Copyright and research

Saturday April 30      W31A 3.30-5pm
Maximum participants per session: 25
Cost: $NZ50
Location: SkyCity Convention Centre
Facilitator: Ms Melanie Johnson, Copyright Officer, Libraries and Learning Services, Te Tumu Herenga, The University of Auckland, NZ

This workshop is suitable for researchers undertaking contemporary work, or those researching and publishing historical content. It will be run by two professionals working in the area of copyright, who address the different aspects and differences between the laws of copyright in New Zealand and Australia. This workshop will also cover the use of images, introduction to Creative Commons, moral rights and “open access” image collections.

Embracing the edge! The ANZCA Roles in Practice and your department – How can we best introduce the roles into departmental teaching programs?

Saturday April 30      W32A 8.30-10am
Maximum participants per session: 25
Cost: Complimentary
Location: SkyCity Convention Centre
Facilitator: Dr Kerryn Bunbury, Middlemore Hospital, NZ

The ANZCA 2013 curriculum introduced the Roles in Practice framework based on the Canadian CanMEDS framework. The Roles include the medical expert role, and the six intrinsic roles – communicator, collaborator, professional, manager, health advocate and scholar. This workshop is a chance for supervisors of training and other educators to gain further understanding about the curriculum learning outcomes of the roles. There will also be the opportunity for workshop attendees to develop a blueprint for teaching the roles in their own departments.

Introducing the ANZCA Educators Program

Saturday April 30      W33A 10.30am-noon
Maximum participants per session: 20
Cost: Complimentary
Location: SkyCity Convention Centre
Facilitator: Mr Maurice Hennessy, Learning and Development Facilitator, ANZCA

ANZCA has developed five new offerings for the ANZCA Educators Program (formerly the Foundation Teacher Course) and this workshop will outline the modules and enable participants to experience a pilot of one of the new interactive modules. Come and share in the experience.
### ANZCA training program 101: Pearls of wisdom for new supervisors of training, rotational supervisors, education officers and deputy education officers

**Saturday April 30**
W34A 10.30am-noon

**Maximum participants per session:** 35

**Cost:** Complimentary

**Location:** Aotea Centre

**Facilitator:** Dr Leona Wilson, Executive Director of Professional Affairs, ANZCA, and Dr Ian Graham, Dean of Education, ANZCA

The ANZCA Vocational Training Program is the major entry point for specialist anaesthesia in Australia and New Zealand. The training and education roles that you have recently taken on are critical to providing a world-class training program. With the implementation of a new curriculum in recent years, there is a lot to discover about the training program from practical "on site" changes to new technology systems recording requirements. In this workshop you will discover some important pearls of wisdom to assist you with your new role as supervisor of training, rotational supervisor, education officer or deputy education officer. This will include what you need to know, how (and where) to find the information and who to contact and when. You will also have the opportunity to share experiences with those who have recently started in their roles. This workshop is a must if you have commenced your role in the past six months.

### Stepping back from the edge! Support for SOTS and their role in the ANZCA curriculum

**Sunday May 1**
W35A 3.30-5pm

**Monday May 2**
W35B 3.30-5pm

**Maximum participants per session:** 40

**Cost:** Complimentary

**Location:** Aotea Centre

**Facilitator:** Dr Sarah Nicolson, Auckland City Hospital, NZ, and Dr Jennifer Taylor, Middlemore Hospital, NZ

The ANZCA supervisor of training (SOT) role is challenging and has changed markedly in the past few years with the introduction of the revised ANZCA curriculum. The SOT workshops provide a chance for SOTs to get together to share experiences and tips to aid the delivery of exceptional training in our departments. At this workshop we will explore resources and strategies to support you in your supervisor role. We will also be including time to discuss and address some of the more confusing aspects of the SOT job and its interface with the new curriculum.

### EMAC Instructors CPD debrief workshop

**Monday May 2**
W36A 10.30am-noon

**Maximum participants per session:** 18

**Cost:** Complimentary

**Location:** Aotea Centre

**Facilitator:** Dr Jane Torrie, Auckland City Hospital, NZ and Dr Stuart Marshall, Monash Medical Centre, Vic

This workshop is open only to EMAC instructors: current instructors, previous instructors looking to return, and assistant instructors. Participants will practice and discuss debriefing approaches: an opportunity to share tips and pitfalls. A certificate of attendance will be available.

### What would you tell a colleague who is considering retirement?

**Tuesday May 3**
W37A 1.30-3pm

**Maximum participants per session:** 30

**Cost:** Complimentary

**Location:** Aotea Centre

**Facilitator:** Dr Di Khursandi, Caboolture Hospital, Qld

We need your tips! How do we retire safely, gracefully and successfully? This workshop is designed for those who have retired, and those considering retirement.

### EMAC Lunch

**Monday May 2**
Noon-1.30pm

**Location:** Aotea Centre

An informal lunch for prospective and current EMAC instructors. Come along and ask questions, share experiences and make suggestions. You do not need to have attended the preceding workshop.
Workshops continued

Stream: Pain medicine

The edge of discomfort – seeking secular help from POPE

Saturday April 30  W38A 8.30-10am
Maximum participants per session: 24
Cost: $NZ50
Location: SkyCity Convention Centre
Facilitator: Professor Milton Cohen, St Vincent’s Clinic, NSW

A hands-on session to extract maximum information about pain and function from the physical examination.

Experimental pain testing – how and what

Saturday April 30  W39A 8.30-10am
Maximum participants per session: 30
Cost: $NZ50
Location: SkyCity Convention Centre
Facilitator: Dr David Rice, AUT University, NZ

This workshop provides an opportunity to come and learn about experimental pain testing. Come and see state-of-the-art pain testing equipment and even have a go. Run by an experienced research team this session will appeal to experienced clinicians interested in developing research ideas and is an opportunity for research groups from across Australasia to network and exchange ideas. Although clearly aimed at the research community this will also be of use to trainees and those who think they might be interested in advancing their research careers – meet some people, talk through some ideas and overcome barriers.

CPD and me – reducing lifelong learning to ticks in boxes

Saturday April 30  W40A 10.30am-noon
Maximum participants per session: 30
Cost: $NZ50
Location: SkyCity Convention Centre
Facilitator: Dr Michael Vagg, Pain Matrix, Vic

This workshop will explain in detail the ANZCA/FPM CPD standard and program. We will go through the requirements for each of the categories of activity and how they apply to FPM Fellows from different specialty groups who participate in their other College’s CPD program. Speakers from different craft groups will report on the issues they have faced and workarounds they have used to ensure they meet the FPM CPD standard and an open discussion session will follow the presentations.

Pain management in the pregnant patient

Saturday April 30  W42A 1.30-3pm
Maximum participants per session: 30
Cost: $NZ50
Location: SkyCity Convention Centre
Facilitator: Dr Duncan Wood, Auckland City Hospital, NZ

This session will deal with analgesia in pregnancy and breast-feeding – what drugs to use, when and for what problem, including patients with chronic pain who then become pregnant.

Pain and wellness

Saturday April 30  W41A 10.30-noon
Maximum participants per session: 30
Cost: $NZ50
Location: SkyCity Convention Centre
Facilitator: Dr John Pereira, University of Calgary, Canada

This workshop will explore ideas of pain and wellness, challenge many of the dogmas that exist in modern society and look at the benefits of working collaboratively with patients in a wellness rather than disease paradigm. This session is expected to be popular so early registration is recommended.

Acute pain management in the patient on opioids

Saturday April 30  W43A 3.30-5pm
Maximum participants per session: 30
Cost: $NZ50
Location: SkyCity Convention Centre
Facilitator: Professor Stephan Schug, Royal Perth Hospital, WA

This session will use real life examples to demonstrate strategies for treating acute pain in the drug-using or opioid-tolerant patient.

Interventional pain – practical troubleshooting

Saturday April 30  W44A 3.30-5pm
Maximum participants per session: 30
Cost: $NZ50
Location: SkyCity Convention Centre
Facilitator: Dr Steven Cohen, John Hopkins Blaustein Pain Treatment Centre, US

Practical troubleshooting advice. An opportunity to meet with hands-on experts and discuss the challenges and solutions that they find most effective. The session will provide a good opportunity for networking and peer group discussion and will likely be of interest to the experienced clinician, the specialist looking at expanding their interventional portfolio and also to trainees.
