CONCURRENT SESSION 5: New concepts in anaesthesia - neonatal, paediatric, and obstetric care
- Dr Michelle Roets
  Perspectives on the anaesthetic management of children with OSA
  Cochrane Paediatric OSA group
- Dr George Hopkins
  Paediatric obesity – a surgeon’s perspective
  Society for Paediatric Anaesthesia in New Zealand and Australia (SPANZA)
- Professor Britta Regli-von Ungern-Sternberg
  Impact of anaesthesia on lung function
  Australian Society of Anaesthetists
- Dr Anil Patel
  An update on Transnasal Humidified Rapid-Exchange Ventilation (THREVE)
  Royal Australasian College of Surgeons

CONCURRENT SESSION 6: Anaesthesia in surgery – ACCS for consultants
- Professor Bala Venkatesh
  Data sharing in clinical trials
  ANZCA Clinical Trials Network
- Dr Mike Foss
  New approaches to clinical trial design
  ANZCA Clinical Trials Network
- Associate Professor Dr Andreas Schöller
  ANZCA Clinical Trials Network – breaking trials
  ANZCA Clinical Trials Network

CONCURRENT SESSION 7: The psychological impact of trauma and injury
- Dr Michelle Roets
  The psychological impact of trauma and injury
  Society for Anaesthesia in Trauma and Injury
- Dr Liam Balkin
  The psychological impact of trauma and injury
  American Society of Anaesthesiology
- Professor André Van Zundert
  How IV catheters revolutionised medicine!
  Australian Society of Anaesthetists

CONCURRENT SESSION 8: What's new in research
- Dr Sue Ballantyne
  Legal and ethical issues associated with cannabinoid prescribing
  Australian Society of Anaesthesiology
- Dr Catherine Llewellyn
  The other side of cannabinoids
  Australian Society of Anaesthesiology
- Dr Marc Walden
  Ethical considerations in interventional pain medicine
  American Society of Regional Anesthesia and Pain Medicine

CONCURRENT SESSION 9: Politics or science – cannabis or cannabinoids
- Dr Geoff Askin
  The untold story of chronic pain after surgery (and the role of surgery in chronic pain management)
  American Society of Regional Anesthesia and Pain Medicine
- Dr Michelle Roets
  APHA (APNA) Paediatric Perioperative Pain Management Conference – APHA (APNA) Paediatric Perioperative Pain Management Conference
- Dr Susan Evans
  An update on cell salvage
  Society for Anaesthesia in Trauma and Injury

FACULTY OF PAIN MEDICINE 2:
- Dr Susan Evans
  What can laboratory studies tell us about peri-operative analgesia in infants and children?
  American Society of Regional Anesthesia and Pain Medicine
- Dr Marc Walden
  What’s new in interventions
  American Society of Regional Anesthesia and Pain Medicine
- Dr Katinka White
  The psychological impact of trauma and injury
  American Society of Anaesthesiology

FACULTY OF PAIN MEDICINE 3:
- Dr Sue Ballantyne
  Medicinal cannabis for chronic non-cancer pain: promise or pitfalls?
  American Society of Regional Anesthesia and Pain Medicine
- Dr Katinka White
  The role of surgery in chronic pain management
  American Society of Regional Anesthesia and Pain Medicine
- Dr Michelle Roets
  The psychological impact of trauma and injury
  American Society of Anaesthesiology

WORKSHOPS:
- Ms Monica Cronin
  New concepts in oxygenation and ventilation
  Australian Society for Paediatric Anaesthesia
- Dr Rhonda Boyle
  Powerhouse pioneer Professor Tess Cramond
  Australian Society for Paediatric Anaesthesia
- Dr Marc Walden
  Ethical considerations in interventional pain medicine
  Australian Society of Regional Anesthesia and Pain Medicine
- Dr Susan Evans
  An update on cell salvage
  American Society for Paediatric Anaesthesia

WORKSHOPS:
- Ms Monica Cronin
  New concepts in oxygenation and ventilation
  Australian Society for Paediatric Anaesthesia
- Dr Rhonda Boyle
  Powerhouse pioneer Professor Tess Cramond
  Australian Society for Paediatric Anaesthesia
- Dr Marc Walden
  Ethical considerations in interventional pain medicine
  Australian Society of Regional Anesthesia and Pain Medicine
- Dr Susan Evans
  An update on cell salvage
  American Society for Paediatric Anaesthesia

WORKSHOPS:
- Ms Monica Cronin
  New concepts in oxygenation and ventilation
  Australian Society for Paediatric Anaesthesia
- Dr Rhonda Boyle
  Powerhouse pioneer Professor Tess Cramond
  Australian Society for Paediatric Anaesthesia
- Dr Marc Walden
  Ethical considerations in interventional pain medicine
  Australian Society of Regional Anesthesia and Pain Medicine
- Dr Susan Evans
  An update on cell salvage
  American Society for Paediatric Anaesthesia

WORKSHOPS:
- Ms Monica Cronin
  New concepts in oxygenation and ventilation
  Australian Society for Paediatric Anaesthesia
- Dr Rhonda Boyle
  Powerhouse pioneer Professor Tess Cramond
  Australian Society for Paediatric Anaesthesia
- Dr Marc Walden
  Ethical considerations in interventional pain medicine
  Australian Society of Regional Anesthesia and Pain Medicine
- Dr Susan Evans
  An update on cell salvage
  American Society for Paediatric Anaesthesia

WORKSHOPS:
- Ms Monica Cronin
  New concepts in oxygenation and ventilation
  Australian Society for Paediatric Anaesthesia
- Dr Rhonda Boyle
  Powerhouse pioneer Professor Tess Cramond
  Australian Society for Paediatric Anaesthesia
- Dr Marc Walden
  Ethical considerations in interventional pain medicine
  Australian Society of Regional Anesthesia and Pain Medicine
- Dr Susan Evans
  An update on cell salvage
  American Society for Paediatric Anaesthesia

WORKSHOPS:

CONCURRENT SESSION 11: Live surgery and transplantation

Chair: Dr Peter Benyon

- How to do a liver transplant
- Lung ultrasound should be mandatory for medical critical care
- Major bleeding

Chair: Dr Michael Cooper

- Unravelling the enigma of atrial fibrillation
- The obesity epidemic
- The challenges of anaesthesia in Papua New Guinea

Chair: Professor Kate Leslie AO

- From little things... Nanoparticles and wound healing
- Working with big data
- Investigating the treatment of patients with severe bleeding

Chair: Dr Chantal McNally

- Prehabilitation for optimum outcomes
- Nerve conduction studies
- Colour flow ultrasonography

Chair: Dr Robert Webb

- How to manage severe bleeding
- In the time of greatest need
- Electrical stimulation and electrical recording

Chair: Dr Rachel Ng

- Prehabilitation for optimum outcomes
- From little things... Nanoparticles and wound healing
- The price of a pound of flesh

Chair: Dr Suzanne Bertrand

- Prehabilitation for optimum outcomes
- From little things... Nanoparticles and wound healing
- The price of a pound of flesh

Chair: Professor David Story

- Prehabilitation for optimum outcomes
- From little things... Nanoparticles and wound healing
- The price of a pound of flesh

Chair: Dr Robert Webb

- Prehabilitation for optimum outcomes
- From little things... Nanoparticles and wound healing
- The price of a pound of flesh

Chair: Dr Rachel Ng

- Prehabilitation for optimum outcomes
- From little things... Nanoparticles and wound healing
- The price of a pound of flesh

Chair: Dr Suzanne Bertrand

- Prehabilitation for optimum outcomes
- From little things... Nanoparticles and wound healing
- The price of a pound of flesh

Chair: Dr Robert Webb

- Prehabilitation for optimum outcomes
- From little things... Nanoparticles and wound healing
- The price of a pound of flesh

Chair: Dr Rachel Ng

- Prehabilitation for optimum outcomes
- From little things... Nanoparticles and wound healing
- The price of a pound of flesh

Chair: Dr Suzanne Bertrand

- Prehabilitation for optimum outcomes
- From little things... Nanoparticles and wound healing
- The price of a pound of flesh

Chair: Dr Robert Webb

- Prehabilitation for optimum outcomes
- From little things... Nanoparticles and wound healing
- The price of a pound of flesh

Chair: Dr Rachel Ng
Highlights

- Professor Carin Hagberg presents “Big topics in airway management.”
- Ms Hetty Johnson AM advocates for better child protection in Australia.
- The giants of antibiotic therapy combine forces in an exceptional session on sepsis.
- A party like no other at the silver Gala Dinner: a celebration of the 25th anniversary of ANZCA.
8.30-9am

CONCURRENT SESSION 36: Technology and medical response
Chair: Dr Steven Cole
Innovative practices: thinking in a forging culture of ideas
Dr Michael Park
Responding to disasters
Professor Peter Akeren
Hospital response to mass shootings
Dr Michael Reed

9am-10am

LUNCH, healthcare industry exhibition, Retired Anaesthetists’ Luncheon
10-10.30am

CONCURRENT SESSION 35: Patient experience of awareness
Chair: Dr Jane Searle
Leaders of blame
Dr Michael Rudd
Threat assessment and disaster response
Adjunct Professor Michele Pathé
Intractable grievances: practising in a burgeoning culture of blame
Intractable grievances: practising in a burgeoning culture of blame

10.30am-noon

CONCURRENT SESSION 34: Morning tea, healthcare industry exhibition
10.30am-11am

CONCURRENT SESSION 33: Review: theirs to take and theirs to leave
Chair: Dr Mark O’Brien
Growing the research leaders of the future
Dr Susan O’Dwyer
Skills for emerging leaders
Professor Kate Leslie AO

Workshops and masterclasses for CPD participants within the ANZCA CPD Program approval
CPD Program: Workshops, Masterclasses, Day Courses, Lectures, breakfast and lunchtime knowledge and skills activities.
Further detail regarding enrolling responses education sessions and how to have them recognised as suitable can be found in the ANZCA CPD Handbook or on the ANZCA website.
ANZCA members will automatically have their attendance accredited to their CPD portfolio in June 2017.

CPD Program approval
This event is classified by ANZCA CPD participants in the knowledge and skills and emergency response categories.

Workshops and masterclasses for CPD participants within the ANZCA CPD Program approval
CPD Program: Workshops, Masterclasses, Day Courses, Lectures, breakfast and lunchtime knowledge and skills activities.
