Workshops

Workshops are open to all delegates registered to attend the 2017 ASM. Unless otherwise specified, workshops will be held on Friday May 12 at the Brisbane Convention & Exhibition Centre (BCEC).

- Delegates may register for more than one workshop.
- Workshop numbers are limited and places are allocated on a first-come-first-served basis.
- A ticket is required for entry to all workshops.
- Workshops are always well subscribed so we encourage you to register early to secure your place.
- Facilitators may contact participants directly in the lead up to the meeting to provide background or preparatory material.
- Prices are in Australian dollars including GST.

Stream: Emergency response

Cardiac arrest – ACLS for anaesthetists

<table>

<td>W01C 12.30-2.30pm</td>
<td>W01D 3-5pm</td>
</tr>
</tbody>
</table>

Maximum capacity: 25
Cost: $125
Facilitator: Dr Francesca Rawlins, Princess Alexandra Hospital, Brisbane

This is a hands-on workshop designed to enable the participants to recognise and treat a cardiac arrest in an adult patient as per the advanced life support (ALS) guidelines. The workshop places emphasis on resuscitation for common anaesthetic crises, and effective communication and teamwork through the application of crisis resource management (CRM) principles. Participants will also become confident in the use of Lifepak defibrillators. This workshop meets the ANZCA criteria for the emergency response cardiac arrest activity.

“Go big or go home” – emergency response training for CICO scenarios

</tr>
</thead>
<tbody>
<tr>
<td>Friday May 12</td>
<td>W04A 8.30am-12.30pm</td>
<td>W04B 1.30-5pm</td>
</tr>
</tbody>
</table>

Maximum capacity: 12
Cost: $310
Location: Mater Education Practice Improvement Centre (MEPIC), Mater Hospital, Brisbane
Facilitators: Dr Dominic Ormston and Dr Suzanne Bertrand, Mater Health Services, Brisbane

High fidelity simulation training for cardiac arrest scenarios in the perioperative environment. This course will provide the opportunity for participants to fulfil the learning objectives of the ANZCA management of cardiac arrest emergency response activity.

Return transport to MEPIC from the BCEC will be provided.
Major haemorrhage – management of unexpected severe bleeding

Sunday May 14  
W05A 10.30am-noon  
W05B 1.30-3pm

Maximum capacity: 28  
Cost: $80

Facilitators: Dr Matthew Duncan, Wesley Anaesthesia & Pain Management, Brisbane and Dr Sue Clark, Wesley Medical Centre, Brisbane

Any anaesthetist may suddenly and unexpectedly become involved in situations involving major blood loss. This workshop is designed to educate participants in a modern and practical approach to the management of severe bleeding, including massive transfusion protocols, options for vascular access, point of care coagulation testing, blood product selection, and culminating in a simulated critical scenario. This workshop meets the ANZCA criteria for the emergency response major haemorrhage activity.

Managing emergencies in paediatric anaesthesia for consultants (MEPA FC)

Friday May 12  
W06A 7.30am-12.30pm  
W06B 1-6pm

Saturday May 13  
W06C noon-5pm

Maximum capacity: 11  
Cost: $310

Location: Lady Cilento Children’s Hospital, Brisbane

Facilitators: Dr Daniel Boyd, Dr Vanessa Rich, Dr Nicole Anderson, Dr Derek Rosen, Ms Louise Dodson, Mr Stefan Pietsch, Lady Cilento Children’s Hospital, Brisbane, and Dr David Hill, Wickham Terrace Anaesthesia and Lady Cilento Children’s Hospital, Brisbane

The MEPA FC course provides a comprehensive update in paediatric anaesthesia and resuscitation of the sick child for those who undertake an occasional paediatric list, provide out-of-hours care, or may be involved in the care of a sick child. Participants in the ANZCA CPD Program may claim this major haemorrhage/anaphylaxis course as an emergency response activity in their CPD portfolio.

Return transport to Lady Cilento Children’s Hospital from BCEC will be provided.

Newborn and paediatric resuscitation

Friday May 12  
W07A 9-10.30am  
W07B 11am-12.30pm

Maximum capacity: 24  
Cost: $110

Facilitators: Dr Sally Wharton, Children’s Hospital at Westmead, Sydney and Dr Cameron Graydon, Lady Cilento Children’s Hospital, Brisbane.

This session, run by sub-specialty paediatric anaesthetists, will provide the opportunity to update knowledge and skills in newborn and paediatric resuscitation.

There will be six skill stations - newborn resuscitation, neonatal airway management, vascular access (including IO), BLS and choking child, shockable rhythms and non-shockable rhythms.

Stream: Airway management

Nasendoscopy: “Get the big picture by starting small”

Friday May 12  
W08A 9-10.30am  
W08B 11am-12.30pm

Maximum capacity: 21  
Cost: $110

Facilitators: Dr Linda Beckmann, Royal Brisbane and Women’s Hospital and Dr Hannah Burns, ENT surgeon, Lady Cilento Children’s Hospital, Brisbane

In groups of three participants will be able to perform nasendoscopy techniques on each other. To attend this workshop you need to be willing to have these procedures performed on you by your colleagues and it is unsuitable for anyone on anticoagulants or who has a history of a bleeding disorder.

Fibreoptic intubation (FOI) course: “Big benefits from polishing your skills with the big guns”

Friday May 12  
W09A 1.30-3pm  
W09B 3.30-5pm

Maximum capacity: 16  
Cost: $110

Facilitators: Dr Daniel Clarke, Royal Brisbane and Women’s Hospital; Dr Mark Stacey, University Hospital of Wales, Cardiff, United Kingdom; Dr Tish Stefanutto, Chair Airway SIG, Gosford Hospital, Gosford

During this hands on fibreoptic session, participants will have opportunity to refine their fibreoptic dexterity skills on a range of manikins and in a variety of scenarios, discuss the latest in airway topicalisation, and practice the use of videolaryngoscopy in combination with fibreoptic bronchoscopy. Paul Baker’s ORSIM bronchoscopy trainer, which virtually models a range of anatomical and pathological scenarios giving clinical context to dexterity training, will be available for use, and an expert team of facilitators will be available to take questions.

Simulation workshop – airway challenges

Friday May 12  
W10A 8.30am-12.30pm  
W10B 1-5pm

Maximum capacity: 15  
Cost: $310

Location: Mater Education Practice Improvement Centre (MEPIC), Mater Hospital, Brisbane

Facilitator: Associate Professor Kersi Taraporewalla, Royal Brisbane and Women’s Hospital, Brisbane

Human factors are associated with most airway problems that have resulted in poor outcomes. Anaesthetists and their teams need to train regularly to understand and manage these factors. This simulation session allows for an examination of the human factors involved, and explores possible solutions to common problems. This workshop is not for the faint hearted as the simulations could result in poor outcomes based on performance. There will be three scenarios presented, each based on real cases for learning.

Return transport to MEPIC from BCEC will be provided.
Workshops continued

Stream: Thoracic and cardiac

Basic transthoracic echo: focused cardiac ultrasound – looking at the bigger picture

Friday May 12
W11A 9-10.30am
W11B 11am-12.30pm

Maximum capacity: 16
Cost: $120
Facilitators: Dr Bradley Smith, Anaesthesia and Critical Care Services, Gold Coast and Ms Kellie D’Orsa, Cardiac Skills Australia, Brisbane

Our basic focused cardiac ultrasound workshop allows delegates to gain a sound knowledge of performing a bedside focused echo through “hands on” teaching. Learning objectives include: four acoustic windows/image orientation and transducer manipulation, left ventricular (LV) systolic function assessment and right ventricular (RV) systolic function assessment.

Advanced transthoracic echo: focused cardiac ultrasound – looking at the bigger picture

Friday May 12
W12A 1.30-3pm
W12B 3.30-5pm

Maximum capacity: 16
Cost: $120
Facilitators: Dr Bradley Smith, Anaesthesia and Critical Care Services, Gold Coast and Ms Kellie D’Orsa, Cardiac Skills Australia, Brisbane

Building from the basics of echo, we cover learning outcomes such as how to perform the four acoustic windows for a focused cardiac ultrasound exam. We will appreciate the echo findings of left ventricular (LV) and right ventricular (RV) systolic function, and outline the steps to calculate cardiac output (C.O), right ventricular systolic pressure (RVSP) and ejection fraction (EF). Finally, we will identify echo features of cardiac tamponade, filling, acute myocardial infarction (AMI), pulmonary embolism and aortic dissection.

Help – I have to isolate!

Friday May 12
W13A 9-10.30am
W13B 11am-12.30pm

Maximum capacity: 16
Cost: $100
Facilitators: Dr Carina Koorts, Royal Brisbane Hospital, Brisbane; Dr Ivan Raphchuk, Prince Charles Hospital Brisbane; and Dr Barbara Rodriguez, Monash Medical Centre Melbourne

Practical workshop for the occasional user, or anyone inexperienced in placing double lumen endotracheal tubes for lung isolation.

Focused ultrasound simulation education – transthoracic echocardiography (FUSE TTE)

Friday May 12
W14A 8-10.30am
W14B 10.45am-1.15pm

Maximum capacity: 20
Cost: $300
Facilitators: Dr Nathan Peters, Royal Brisbane and Women’s Hospital, Brisbane and Associate Professor David Canty, Royal Melbourne Hospital, Melbourne

The FUSE TTE workshop is designed to teach the knowledge base and practical skills to perform lung ultrasound for acute lung pathology relevant to anaesthesia and critical care and ultrasound guided drainage of pleural effusion. There are two components to the course: online pre-meeting learning (approximately 20 hours) and a two hour supervised workshop at the meeting.

Stream: Regional anaesthesia

Anatomy and ultrasound for peripheral nerve blockade

Friday May 12
W16A 7am-5.30pm

Maximum capacity: 42
Cost: $825 Early-bird on or before March 31, 2017
$874.50 from April 1, 2017
Additional charge of $15 per person for transfers from the BCEC to University of Queensland
Location: Gross Anatomy Facility, Otto Hirschfeld Building No 81, University of Queensland, St Lucia
Facilitator: Dr Phillip Cowlishaw, Course Director, Mater Hospitals, Brisbane

A one-day, hands-on, practical course provides anaesthetists and trainees with the opportunity to learn new skills and theoretical knowledge to enhance their practice of regional anaesthesia. The anatomy laboratory at the University of Queensland is purpose built for the education of medical and allied health staff, where participants will receive guidance from experts in regional anaesthesia.
In addition to a comprehensive theoretical component, practical sessions include:

- Head, neck and eye block.
- Tap blocks.
- Lumbar, thoracic and paravertebral.
- Sciatic and lower limb.
- Upper limb.
- Needling and ultrasound.

Participants of the workshop will gain new knowledge and the confidence to perform regional anaesthesia in their clinical setting. Workstations are conducted in small groups, limited to six, to allow adequate time for practice at each workstation. This event has been established since 2005 with positive feedback from previous participants.

**Regional anaesthesia – upper limb**

**Regional anaesthesia – lower limb**

</table>

**Maximum capacity:** 10

**Cost:** $100

**Facilitator:** Dr Jason Howard, Princess Alexandra Hospital, Brisbane

This is a small group, hands on workshop where you will have the opportunity to scan live models. The facilitator will initially concentrate on teaching and demonstrating the lateral cutaneous, femoral and sciatic block. This will include describing how to achieve motor sparing femoral block, isolated saphenous block and isolated tibial and common peroneal blocks. If time allows the facilitator will go through the ultrasound assisted ankle block and lumbar plexus block.

</tbody>
</table>

**Maximum capacity:** 10

**Cost:** $100

**Facilitators:** Dr Nico Terblanche, Royal Hobart Hospital, Hobart and Dr Phoebe Rose, Lismore Base Hospital, Lismore

This is a small group, hands on workshop where you will have the opportunity to scan live models. The facilitator will first demonstrate the relevant sonoanatomy for performing a rectus sheath block, transversus abdominis block, ilioinguinal and genitofemoral block. Catheter techniques will be also discussed and newer novel techniques such as the quadratus lumborum block discussed if time permits.

**Maximum capacity:** 24

**Cost:** $150

**Facilitators:** Dr Alfred Chua, Royal Prince Alfred Hospital, Sydney, Dr Tania Dutton, St Andrew’s Anaesthesia, Brisbane, Professor Chandra Kumar, Khoo Teck Puat Hospital, Singapore, Dr Martina Meyer-Witting, St Andrews Anaesthesia, Brisbane, Dr Jarrod Ngan, Narcosis Anaesthesia Group, Brisbane, and Dr Kerry O’Connell, St Andrews Anaesthesia, Brisbane

This “wet lab” workshop will hone your skills in eye block placement and trouble-shooting.
Stream: Perioperative medicine

Cardiopulmonary exercise test (CPX)

**Friday May 12**  W22A 3.30-5pm

**Maximum capacity:** 30

**Cost:** $80

**Facilitators:** Dr Adrian Hall, Princess Alexandra Hospital, Brisbane, and Dr Pierre Kotze, Mater Adult Hospital, Brisbane

The CPX workshop will provide an introduction to CPX testing including indications for testing, advantages of CPX, practical aspects of testing (including a demonstration CPX test), measurements made, display and interpretation of data, and use of CPX in perioperative risk stratification.

Participants are invited to present interesting tests for interpretation and discussion.

ROTEM and TEG – rapid intervention, big results!

**Monday May 15**  W23A 1.30-3pm

**Maximum capacity:** 30

**Cost:** $50

**Facilitators:** Dr Anand Parameswaran, Dr Christian Van Nieuwenhuysen and Dr Kellie Bird, Princess Alexandra Hospital, Brisbane, and Dr Julie Lee, Royal Brisbane & Women’s Hospital, Brisbane

The learner will be introduced to the rotational thromboelastometry (ROTEM) and thromboelastography (TEG) point of care testing systems. They will cycle through six stations covering the basics of device use with company representatives and interpretation of common coagulopathies in trauma, obstetrics, liver and cardiac surgery.

Advanced haemodynamic monitoring

**Friday May 12**  W24A 8-11.30am  W24B 1-4.30pm

**Maximum capacity:** 20

**Cost:** $290

**Location:** Medical Engineering Research Facility (MERF), Prince Charles Hospital, Brisbane

**Facilitators:** Associate Professor Bernhard Riedel, Peter MacCallum Cancer Centre, Melbourne, Dr Laurence Weinberg, Austin Health, Melbourne, Dr Helen Davies, Queen Elizabeth II Jubilee Hospital, Brisbane, Dr Palvannan Sivalingam, Princess Alexandra Hospital, Brisbane, and Professor Olivier Huet, CHRU La Cavale Blanche, Brest, France

This “wet lab” will cover a variety of hands on experiences of invasive, minimally invasive and non-invasive techniques for monitoring cardiac output, other cardiac parameters and fluid status in modern anaesthesia.

**Kindly supported by:**

Edwards

Edwards Lifesciences, based in Irvine, California, is the global leader in patient-focused medical innovations for structural heart disease, as well as critical care and surgical monitoring. Driven by a passion to help patients, the company collaborates with the world’s leading clinicians and researchers to address unmet healthcare needs, working to improve patient outcomes and enhance lives.

For more information, visit Edwards.com and follow us on Twitter @EdwardsLifesci.

Working under pressure: critical care under hyperbaric conditions

**Friday May 12**  W25A 1-4pm

**Maximum capacity:** 12

**Cost:** $110

**Location:** Hyperbaric Medicine Service, Royal Brisbane and Women’s Hospital, Brisbane

**Facilitators:** Dr Susannah Sherlock, Dr Robert Webb, Dr Adam Storey, Dr Kenneth Thistlethwaite, Royal Brisbane and Women’s Hospital, Brisbane

The purpose of this workshop is to demonstrate the equipment for in-chamber ventilation and the deluge system (for in chamber fire) – critical care considerations for intubated patients in a high pressure environment. There may be a possibility for a deep dive (30m) to demonstrate N2 narcosis and participants who are deemed fit to compress may have a 14m compression to experience the chamber environment if desired (both dives are subject to liability advice).

Return transfers to Hyperbaric Medicine Services from BCEC will be included.

Delegates will be required to sign an indemnity form and pass a medical for fitness to compress prior to participation in the dives. The medical can be done on the day by the workshop facilitators.

Contraindications to compression include cardiac/lung disease, exposure to bleomycin, and failure to equalise ears. Queries can be directed to RBWH Hyperbaric Med Unit.

Stream: Communication, safety, legal, research

Scholarly writing 1: the problem/gap/hook strategy – writing an effective introduction

**Friday May 12**  W26A 1.30-2.30pm

**Maximum capacity:** 25

**Cost:** $25

**Facilitator:** Professor Lorelei Lingard, Schulich School of Medicine & Dentistry at Western University, Ontario, Canada

Participants will learn a powerful method for grabbing the reader’s attention, and clearly expressing the thrust of a research paper, in the opening paragraph. Participants will work on provided samples and draft a paragraph for their own paper.
### Scholarly writing 2: it’s a story, not a study – writing a compelling discussion section

**Friday May 12**  
**W27A 3.30-4.30pm**

**Maximum capacity:** 25  
**Cost:** $25  
**Facilitator:** Professor Lorelei Lingard, Schulich School of Medicine & Dentistry at Western University, Ontario, Canada

Participants will learn how to distinguish the sections of a paper that report the study and those that tell the story. Common discussion story-lines will be presented as a useful model to follow in crafting the story of a research paper.

### Getting started in research

**Friday May 12**  
**W28A 3.30-5pm**

**Maximum capacity:** 15  
**Cost:** $25  
**Facilitators:** Professor Kate Leslie AO, Royal Melbourne Hospital, Melbourne and Ms Karen Goulding, ANZCA, Melbourne

Would you like to conduct research? This workshop is aimed at people new to multi-centre research who would like advice on how to get started. The session will cover: developing your own research idea; protocol development; funding opportunities; leading current ANZCA Clinical Trials Network (CTN) multi-centre trials at your site; where to get help and ANZCA CTN support and initiatives.

### Mindfulness – for managing body’s autonomic stress response

**Friday May 12**  
**W30A 3.30-5pm**

**Maximum capacity:** 25  
**Cost:** $65  
**Facilitator:** Dr Sophie Jayamaha, Prince Charles Hospital, Brisbane

The learner will be able to describe mindfulness, and have an opportunity to learn some mindfulness practices and how to integrate them into busy day to day life. The workshop also reviews some scientific evidence of mindfulness in stress management and how it can influence mechanisms of autonomic regulation.

### Developing effective scenarios for medical simulation

**Friday May 12**  
**W31A 11am-12.30pm**

**Maximum capacity:** 24  
**Cost:** $25  
**Facilitator:** Dr Paul Scott, Program Manager – PaperScalpelRock, Royal Brisbane and Women’s Hospital, Brisbane

The learner will understand what is required to develop effective medical simulation scenarios. They will have the opportunity to discuss problems and ideas regarding developing simulation scenarios and develop scenarios in small groups.

### Mindfulness – for managing body’s autonomic stress response

**Friday May 12**  
**W32A 8am-noon**  
**W32B 1-5pm**

**Maximum capacity:** 20  
**Cost:** $290  
**Facilitator:** Dr Marion Andrew, Women’s and Children’s Hospital, Adelaide

The learner will start to develop a skillset that allows them to talk with others in a way that suits the listener’s preferred style of communication, have strategies for motivating themselves and colleagues, trainees, and patients according to their individual needs, and be able to identify signs of distress within individuals and develop constructive ways of responding.

### BIG feedback

**Monday May 15**  
**W33A 3.30-5pm**

**Maximum capacity:** 20  
**Cost:** $40  
**Facilitator:** Dr Marion Andrew, Women’s and Children’s Hospital, Adelaide

This workshop provides an opportunity to use a structured approach to providing and accepting authentic feedback to trainees and even colleagues on attitudes, behaviour and professionalism. It is a suggested workshop for heads of department, supervisors of training, and mentors.

### National audit – learning from major complications

**Monday May 15**  
**W34A 3.30-5pm**

**Maximum capacity:** 20  
**Cost:** $25  
**Facilitator:** Professor Tim Cook, Royal United Hospital, Bath, UK

This workshop is an opportunity to pick through the details of the UK National Audit Projects with Professor Cook, who has designed, executed and disseminated the projects. The workshop will explore the processes underpinning their success as well as examining their finding, impact and limitations.

### Stream: Pain medicine

### Post-op pain – troubleshooting the challenging cases

**Monday May 15**  
**W35A 1.30-3pm**

**Maximum capacity:** 30  
**Cost:** $30  
**Facilitators:** Dr Paul Gray and Dr Joann Rotherham, Princess Alexandra Hospital, Brisbane

This workshop will help you tackle those tricky postoperative pain issues including practical tips for dealing with failing epidurals, regional infusions, challenging patient behaviour and the treatment of acute neuropathic pain.
### Emerging therapies in chronic pain management

**Tuesday May 16**
- **W36A 8.30-10am**
- **Maximum capacity:** 20
- **Cost:** $30
- **Facilitator:** Dr Joshua Daly, anaesthetics, Princess Alexandra Hospital, and pain medicine, Royal Brisbane and Women’s Hospital, Brisbane and Dr Justin Smith, Princess Alexandra Hospital

This workshop will explore the most recent evidence for both common and novel interventional treatments in chronic pain as well as providing a practical guide for the indications and performance of these procedures.

*Pre-reading for registered participants will be provided closer to the date.*

### Stream: Bariatrics

**Morbid obesity in non-bariatric surgery**

**Saturday May 12**
- **W37A 1.30-3pm**
- **W37B 3.30-5pm**
- **Maximum capacity:** 32
- **Cost:** $25
- **Facilitators:** Dr Stephen Bruce and Dr Marcus Soo, Princess Alexandra Hospital, Brisbane, Dr David Trappett, Wickham Terrace Anaesthesia, Dr Matthew Duncan, Wesley Anaesthesia & Pain Management, and Dr Attila Nagy, Gabba Anaesthetic Services, Brisbane

In this hand-on workshop, attendees will have the opportunity to discuss, in a small group environment, contemporary perioperative dilemmas associated with the morbidly obese. Tips, tricks and techniques will be shared and demonstrated during this practical session.

### Stream: Trauma

**LifeFlight: pre-hospital and retrieval medicine**

**Friday May 12**
- **W38A 9am-1pm**
- **Maximum capacity:** 30
- **Cost:** $50
- **Facilitators:** Dr Roland Bartholdy, Lady Cilento Children’s Hospital, Brisbane and Dr Andrew Donohue, Gold Coast University Hospital, Gold Coast

This workshop will provide a practical introduction to retrieval medicine with information sessions, medical equipment stations and opportunities to explore a variety of retrieval aircraft. Attendees will discuss current issues including the interface of anaesthesia and retrieval medicine and can practice their skills in simulated retrieval scenarios.

*Return transport to the LifeFlight Brisbane Base, Brisbane airport from BCEC will be provided.*

### Stream: Education

**ANZCA Educators Program: concepts in assessment**

**Tuesday May 16**
- **W41A 8.30-10am**
- **Maximum capacity:** 18
- **Cost:** $100
- **Facilitator:** Dr Tim Hodgson, Gold Coast University Hospital, Gold Coast

The workshop is based upon the module written for the ANZCA Educators Program. By the end of the session you will be able to describe the concepts of assessment, design valid and reliable multiple choice questions and vivas, apply key educational concepts to workplace based assessments, and understand the importance of self-assessment. This session will be both informative and interactive, allowing participants to share their experiences during the group activities.

### Stream: Green – environmental

**Deadly animals – “Sea and land dangerous creatures of Queensland”**

**Friday May 12**
- **W40A 1.30-3pm**
- **W40B 3.30-5pm**
- **Maximum capacity:** 20
- **Cost:** $80
- **Facilitators:** Dr Conrad Macrokanis, Mater Public Hospital, Brisbane, Dr Mark Little, Cairns Base Hospital, Cairns, and Associate Professor Jamie Seymour, Department of Zoology, James Cook University, Cairns

The workshop will be an overview of land and marine envenomation in Queensland. There will be focus on ecology and clinical management addressing the latest controversies.

### Stream: Education

**Roadside carnage – a car crash simulation**

**Friday May 12**
- **W39A 9-10.30am**
- **W39B 11am-12.30pm**
- **Maximum capacity:** 15
- **Cost:** $75
- **Facilitator:** Mr Tony Hucker ASM, Queensland Ambulance Service, Brisbane

You are first on the scene, what do you do?

This 90 minute workshop will take you on a journey from dealing with multiple patients in a road crash, watching and discussing real life videoed cases and practising advanced airway procedures in weird positions.

Special note to participants: You will be working in and around a car wreck. You may get dirty and be required to carry equipment and lift and carry patients. Don’t worry there will be expert supervision to ensure you don’t get hurt.

This is going to be an action packed 90 minutes and a lot of fun! The workshop will be coordinated by a group of QAS simulation enthusiasts who love teaching.
Curriculum update: what’s new?

Friday May 12   W42A 1.30-3pm
Maximum capacity: 12
Cost: Complimentary
Facilitators: Dr Scott Fortey, Gosford Hospital, Gosford, Dr Paul Lee-Archer and Dr Katherine Hames, Royal Brisbane and Women’s Hospital, Brisbane

The attendees will discuss the various activities required of trainees in order to satisfy the requirements to successfully complete all training requirements including scholar role activities. Attendees will be encouraged to present examples of problematic efforts from their own experience in order to explore the rationale and philosophy behind the requirements.

How to get your paper published – what are journals looking for?

Friday May 12   W45A 1.30-3pm
Maximum capacity: 40
Cost: $40
Facilitators: Dr Andrew Klein, Papworth Hospital NHS Trust, Cambridge, United Kingdom; Professor Michael G Irwin, Department of Anaesthesiology, University of Hong Kong, Queen Mary Hospital and HKU Shenzhen Hospital, China, and Dr Michael Corkeron, Townsville Hospital, Townsville

The workshop will focus on three major themes:
- How to plan your research/audit/service evaluation/survey to maximise your chances of publishing it when finished.
- What different types of articles do journals publish?
- Examples of studies and how to get them published.

Participants who have a poster or abstract at the meeting can bring their abstract and discuss with the facilitators how to turn it into a publication.

Role of an anaesthetist

Friday May 12   W43A 9-10.30am
Maximum capacity: 24
Cost: $25
Facilitator: Dr Genevieve Goulding, Royal Brisbane and Women’s Hospital, Brisbane

This workshop will outline the ANZCA Roles in Practice, which are based on the CanMED roles, and define the elements underlying a specialist doctor’s professional competence, to effectively meet the healthcare needs of our patients. The ANZCA Roles in practice are embedded in ANZCA’s revised curriculum (2013) and form the framework of ANZCA’s document “Supporting anaesthetists’ professionalism and performance – A guide for clinicians.”

Peer support groups and their benefits

Friday May 12   W44A 9-10.30am
Maximum capacity: 20
Cost: $25
Facilitator: Dr Di Khursandi, Caboolture Hospital, Brisbane

This workshop will explore the concept, benefits, threats and logistics of peer support groups.

New supervisor of training (SOT) workshop

Friday May 12   W47A 11am-12.30pm
Maximum capacity: 35
Cost: Complimentary
Facilitators: Dr Leona Wilson, Executive Director of Professional Affairs, ANZCA and Dr Ian Graham, Dean of Education, ANZCA

This workshop is aimed at new SOTs, Rotational supervisors (ROTs) and education officers – the session will give them an overview of their role as a SOT and the tools required to carry out their role. This also provides an opportunity to ask questions and network with other fellows in similar roles across the regions. The workshop will be a must if you have commenced in one of the roles in the last six months.

Annual supervisor of training (SOT) workshop – share experiences and grow together

Monday May 15   W46A 3.30-5pm
Tuesday May 16   W46B 10.30am-noon
Maximum capacity: 40
Cost: Complimentary
Facilitators: Dr Suzanne Bertrand, Mater Health Services Brisbane, Dr Louise Munro, Logan Hospital, Brisbane, and Dr Richard Scolaro, Nambour General Hospital, Nambour

The ANZCA supervisor of training (SOT) role is challenging and has changed markedly in the past few years. The SOT workshops provide a chance for SOTs to get together to share experiences and tips to aid the delivery of exceptional training in our departments. At this workshop we will explore resources and strategies to support you in your supervisor role and will be delivered by experienced SOTs that can share their wisdom.

Beyond Google: an introduction to the ANZCA library

Friday May 12   W48A 9-10.30am
Maximum capacity: 15
Cost: $25
Facilitator: Mr John Prentice, ANZCA, Melbourne

An introduction to the wide range of library resources available to Fellows and trainees, with a focus on the primary and most useful tools, products, and services. After attending the workshop, participants will have a greater awareness and understanding of the resources and services, and tips and tricks for using them.

Even further beyond Google: advanced search techniques

Friday May 12   W49A 11am-12.30pm
Maximum capacity: 15
Cost: $25
Facilitator: Mr John Prentice, ANZCA, Melbourne

Participants are expected to have some experience with searching and using library resources. This workshop will focus on using the resources and services to a more advanced level, such as literature searching in the OVID databases.
Workshops continued

TAC inspector workshop

Friday May 12  W50A 3.30-5pm
Maximum capacity: 25
Cost: Complimentary
Facilitators: Dr Vanessa Beavis, Auckland City Hospital, Auckland, Dr Greg O’Sullivan, St Vincent’s Hospital, Sydney, and Dr Mark Young, Mater Health Services Brisbane

Are you looking for a way to contribute to College activities, while earning practice evaluation CPD credits at the same time? The Training Accreditation Committee (TAC) invites you to “think big” and become an inspector! In this workshop, current members of TAC will outline the accreditation standards and the criteria underpinning these, and explain what’s required during a hospital inspection.

Art and mindfulness workshop

Friday May 12  W51A 8.30-11am
Maximum capacity: 20
Cost: $50
Location: Queensland Art Gallery, Gallery of Modern Art (GOMA), Brisbane
Facilitators: Mr Terry Deen, Head of Learning, QAGOMA and Dr Anna Hallett, Logan Hospital, Brisbane

The art and mindfulness workshop is designed for participants to use art as a means of supporting their wellbeing, by creating opportunities to reflect and practice mindfulness. This facilitated workshop can also assist participants to develop a deep connection to their work, while reconnecting with themselves, their colleagues, friends and families in a meaningful way.

GOMA is a leisurely 15-minute stroll from the BCEC. Delegates to meet at a pre-determined location in the BCEC.

Stream: Other

High speed anaesthesia

Friday May 12  W52A 8am-12.30pm
W52B noon-4.30pm
Maximum capacity: 20
Cost: $360
Location: Mt Cotton Training Centre, Cornubia
Facilitators: Dr David Kingsbury, Mr Simon Maas, Dr Michael Thumm, Dr David Hoppe, Racesafe Team, Brisbane and Mr Paul Stokell, Driving Events, Brisbane

The day will kick off with a performance driving lecture plus car and course explanation by a team of gun instructors. Then it’s out to the proving grounds to learn a whole swag of new tricks including high speed braking, skid recovery techniques, advanced slalom and advanced car control techniques. The driving experience will conclude with a timed gymkhana challenge around a Top Gear-like track! Can you put your name on the top of the list? Combine this performance driving experience with an interactive hands-on workshop covering trackside race car incident control, emergency management and trackside medical requirements. Time will be equally spent between the driving experience and the workshop. This unique workshop will be run by a team of Racesafe experts, including experienced trauma doctors, specialist surgeons, paramedics, medical professionals and recovery teams.

* All delegates must have a valid driver’s licence and will be required to sign an indemnity form on arrival at the track.
* Refreshments and travel are included in registration.

Revised EMAC course Q&A

Monday May 15  W53A 3.30-5pm
Maximum capacity: 30
Cost: Complimentary
Facilitators: Professor Alexander Garden Wellington Hospital, NZ and Dr Stuart Marshall, Peninsula Health, Vic

This Q&A session is open to Supervisors of EMAC and EMAC instructors. It is an opportunity to discuss the changes to the EMAC Course content and transition to the revised course through 2017.

‘Applicable for EMAC supervisors and instructors only’

Childcare at the ASM

Arrangements are being made for an accredited childcare provider to support a pilot program making onsite childcare available to delegates attending the 2017 ANZCA ASM in Brisbane.

Once confirmed, further information including charges will be available through the ASM website and via social media.

Please note: Childcare places will be limited, offered in morning and/or afternoon sessions and will need to be pre-booked prior to attending the ASM directly with the childcare provider.
