Overview
A one day hands-on practical course provides emergency department physicians with the opportunity to learn new skills and theoretical knowledge to enhance their practice of regional anaesthesia.

In addition to a comprehensive theoretical component, practical sessions include:
- Head, neck and eye block
- Sciatic and lower limb
- TAP & Rectus Sheath
- Upper Limb
- Lumbar, Thoracic & Paravertebral
- Needling

Participants of the workshop will gain new knowledge and the confidence to perform regional anaesthesia in their clinical setting. Workstations are conducted in small groups, limited to 6 to allow adequate time for practice at each workstation.

Registration Information
Closing date for registration is 1 May 2017. Due to limited space, an early registration is highly recommended. Registrations are via the ANZCA and FPM Annual Scientific Meeting online registration system. Please visit the ASM website : www.asm.anzca.edu.au for more details.
